

Suggested Sources for Staff Lockers

There are many styles and sources available so be sure to check for local suppliers; look in the telephone directory under "Lockers."

This style (LockeRack®) is one that I've seen used in many veterinary practices with great success. It has 16 compartments in all (12 vertical and four horizontal) plus a sturdy coat rod. Compartment dimensions: 12 in H x 18 in D x 12 in W. Door pulls on each compartment double as padlock hasps. It not only provides locker space but a coat rack also.
